

MINE DEVELOPMENT & DELIVERY PROGRAMME

Building Mining Operations Through Strategic Development, Enterprise Readiness and Disciplined Delivery

*From Opportunity to Production.
Delivered with Confidence.*

DEVELOPING SUCCESSFUL MINES BEFORE PRODUCTION BEGINS

Successful mining operations are established through a series of commercial, technical and operational decisions made long before the first tonne of ore is mined.

Tacmin's Mine Development & Delivery Programme integrates strategic development, enterprise readiness and execution disciplines into a single owner-side framework.

We help owners, investors and enterprise leaders identify opportunities, build readiness and deliver mining operations that create enduring value.

EXECUTIVE SNAPSHOT

	INDUSTRY	Mining & Resources
	PRIMARY FOCUS	Mine Development & Delivery
	PROGRAMME OBJECTIVE	Owner-Side Delivery
	APPROACH	Strategic • Technical Commercial • Operational
	PROJECT OUTCOME	Production Ready
	DELIVERY	Opportunity through Operations

STRATEGIC DEVELOPMENT

Establish the opportunity and create commercial clarity.

ENTERPRISE READINESS

Build the readiness and confidence to invest.

EXECUTION & DELIVERY

Deliver the project and realise long-term value.

OPPORTUNITY IDENTIFICATION

COMMERCIAL EVALUATION

MINE PLANNING & ENGINEERING

PROCUREMENT & CONTRACTING

CONSTRUCTION & COMMISSIONING

OPERATIONS & PERFORMANCE

EXPANSION & OPTIMISATION

“ Successful mines are developed long before they are built. ”

FROM OPPORTUNITY TO OPERATIONS

A structured pathway to establish, develop and deliver successful mining operations.

- 1. STRATEGIC DEVELOPMENT**
Establish the Opportunity
- Opportunity identification & assessment
 - Resource potential & market analysis
 - Infrastructure & logistics assessment
 - Regulatory & environmental review
 - Stakeholder alignment
 - Commercial positioning
 - Funding & investment strategy
 - Development roadmap

- 2. ENTERPRISE READINESS**
Prepare for Delivery
- Scoping studies & concept development
 - Pre-feasibility & feasibility studies
 - Mine design & scheduling
 - Infrastructure planning & engineering
 - Financial modelling & risk assessment
 - Execution planning & governance
 - Contract strategy & procurement strategy
 - Investment decision readiness

- 3. EXECUTION & DELIVERY**
Deliver the Operation
- Engineering management
 - Procurement of contractors & equipment
 - Construction & infrastructure delivery
 - Contract administration & governance
 - Commissioning & operational readiness
 - Operations support
 - Performance improvement
 - Expansion & growth execution

THE TACMIN OWNER-SIDE MODEL

OWNER REPRESENTATION
We act in the owner's best interests at every stage of the project.

INDEPENDENT ADVICE
Objective, commercial and technical advice without conflict.

RISK & VALUE MANAGEMENT
Identify risks early and protect value throughout the project lifecycle.

INTEGRATED DELIVERY
Aligning commercial, technical, operational and governance disciplines.

GLOBAL CAPABILITY
Access to global knowledge, markets and best practice.

SUSTAINABLE OUTCOMES
Delivering projects that create long-term value and enduring impact.

WHAT THE OWNER RECEIVES

CLARITY
A clear understanding of the opportunity, constraints and commercial potential.

CONFIDENCE
Technical and commercial confidence to make informed investment decisions.

CONTROL
Owner-side control through governance, planning and contract strategy.

CERTAINTY
Disciplined delivery reducing risk, delays and cost overruns.

CAPABILITY
Access to specialised expertise and proven delivery capability.

VALUE
A mining operation delivering sustainable returns and long-term value.

KEY DISCIPLINES INTEGRATED ACROSS ALL STAGES

COMMERCIAL
Strategy, modelling, contracts & value

TECHNICAL
Engineering, design, studies & reviews

PROCUREMENT
Sourcing, contracting & supply strategy

OPERATIONS
Readiness, performance & continuous improvement

RISK & SAFETY
Risk management, safety & compliance

GOVERNANCE
Controls, reporting & stakeholder oversight

DELIVERING LONG-TERM MINING VALUE

Integrated disciplines. Owner-side focus. Sustainable outcomes.

The Mine Development & Delivery Programme is built on integrated disciplines applied consistently across the project lifecycle.

From early opportunity assessment through to sustained operations, we represent the owner's interests, reduce risk and enhance commercial outcomes at every stage.

THE VALUE DELIVERED TO OWNERS

STRATEGIC CONFIDENCE

Clear commercial positioning and development pathways.

DELIVERY CONFIDENCE

Technical readiness and disciplined execution planning reduce risk.

INVESTMENT CONFIDENCE

Well-structured projects attract investment and strengthen returns.

OPERATIONAL CONFIDENCE

Effective transition to operations supports sustainable performance.

COMMERCIAL OUTCOMES

Improved cost control, productivity and long-term value creation.

SUSTAINABLE IMPACT

Responsible mining that delivers economic, social and environmental benefits.

THE PROJECT LIFECYCLE

GLOBAL CAPABILITY. LOCAL UNDERSTANDING.

We combine global mining expertise with local knowledge and networks to deliver practical solutions that work in the real world.

Global Experience

Local Insight

Independent Perspective

Owner Focused

Sustainable Results

LET'S DEVELOP VALUE TOGETHER

Partner with Tacmin Group to move your mining opportunity forward with confidence.
